

# THE EDUTEN HIGHLIGHTS

"LET CHILDREN BE CHILDREN"

## ABOUT US

Eduten Playground is a digital learning platform with scientifically proven impact on learning results and grades. It also makes teachers' life easier with automated lesson planning and learning analytics. Eduten Playground achieves all this by combining Finnish educational excellence with gamification and AI.

## FINLAND

Eduten has been used in Finland since 2006 and it is the most used digital learning tool in Finland. It is scientifically proved to increase motivation, learning results and grades. Eduten Playground comes with a ready made math exercise library that includes more than 17,000 gamified exercises. The exercises have been co-designed with hundreds of Finnish teachers, and continuously updated and perfected for an impeccable pedagogical impact.
